

# SureMDM®

Secure. Monitor. Manage.

## Supported Platforms

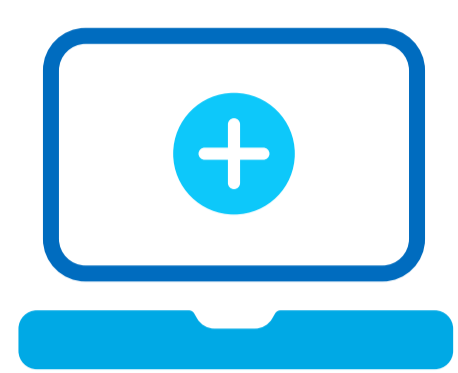

SureMDM by 42Gears is an intuitive and powerful Unified Endpoint Management (UEM) solution for Android, iOS/iPadOS, Windows, Linux, macOS, ChromeOS, Apple TV, Wear OS, VR, and IoT platforms. Deploy, manage, and secure mobile devices and the content they store, keep corporate data safe, and remotely monitor and troubleshoot any device from an easy-to-use central console.

# Key Features:

## Multi-OS Support

Manage diverse device fleets across Android, iOS, macOS, Windows, Linux, ChromeOS, Wear OS, tvOS, VR, and IoT devices.

## Express Enrollment

Enroll and set up devices in SureMDM quickly and easily via multiple enrollment methods.

## Centralized Management

Effectively manage all your devices and get device-related information you need to make informed decisions with SureMDM centralized console.

## Robust Remote Management

SureMDM offers comprehensive remote support features such as remote screen view, remote control, and remote file access, and more for troubleshooting and device maintenance. It also supports out-of-band management for Intel vPro® devices via Intel AMT, enabling remote power on, wake up, reboot, and full KVM (Keyboard, Video, and Mouse) control.

## Android Enterprise and Apple Business Manager Support

Set up, configure, and deploy corporate-owned Android and Apple devices right out of the box.

## Secure and Manage BYOD Devices

Separate corporate apps from personal-use apps, enforce rigorous password policies, and push content, applications, and identity certificates over-the-air on BYOD devices.

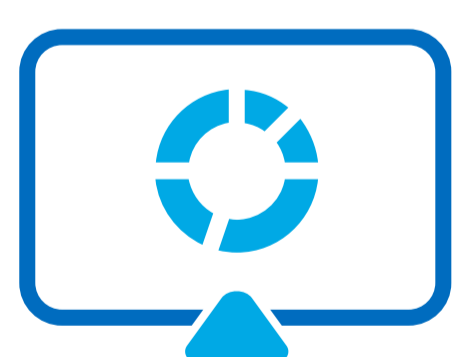

## Monitor and Reinforce Responsible Device Behavior

Automatically activate policies based on time, location, or a device's current Wi-Fi network. Remotely lock, reboot, or wipe devices for precise control and security.

## Remote Support and Troubleshooting

Skip in-person device troubleshooting by remotely accessing devices, now enhanced with screen recording capabilities.

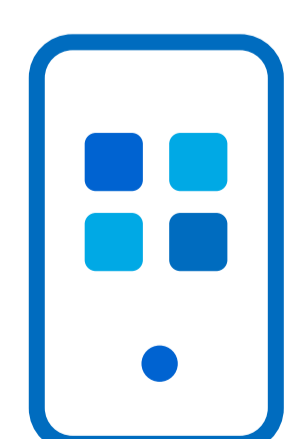

## Advanced Analytics and Data Visualization

Get a graphical view of device details, status, and alerts. Monitor non-compliant devices and visualize data by customizing reports as per requirements.

## Alerts and Notifications

Use the built-in messaging application to broadcast alerts and messages from the SureMDM console.

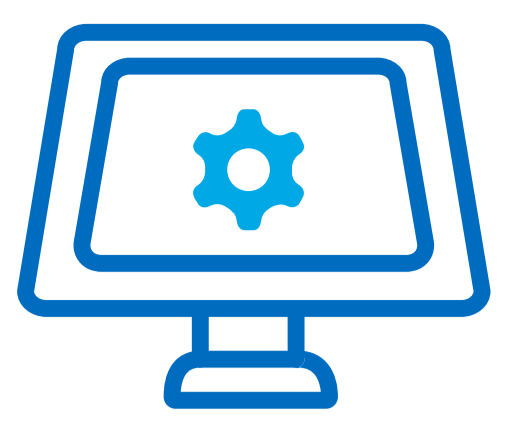

## Mobile Application Management

Bulk-purchase and distribute apps from the central console directly to enrolled devices with Apple Business Manager, Microsoft Store, Google Play Store, and SureMDM App Store.

## Mobile Email Management and Microsoft 365 Support

Define and enforce security compliance policies and secure Microsoft 365 apps and corporate emails.

### Kiosk Management

Lock devices to approved apps and websites while securely displaying business content in loop mode.

### Things Management

Harness 42Gears Things Management Technology to monitor and manage peripheral devices like printers, batteries, cradles, and Internet of Things (IoT) devices from the SureMDM console.

### Mobile Threat Defense

Use MTD to protect your Android devices from various app-based threats. Configure and push Microsoft Defender Antivirus policies on enrolled Windows devices.

### OS Updates and Patch Management

Deploy OS updates and patches across devices, ensuring they stay secure, compliant, and always up to date. Automatically deploy patches onto Windows devices.

### SureAccess

Provide Zero Trust Network Access to corporate resources from your managed endpoints.

### SureIDP: Zero Trust Identity & Access Management

Securely manage user identities, control access to resources, and enforce Zero Trust authentication policies across devices and apps.

### SureMDM InLocate

Precisely track and locate enrolled devices in real-time within your facility.
